■ **Fun for the Whole Family**

Snowshoe, ski, or hike your way around and through **Natural Land Institute's Nygren Wetland Preserve**. Enjoy the unique moonlight winter perspective and imagine what early residents of this area thought when they viewed the wetlands and prairies during this season. A full moon, snowscape, bonfire, luminaries, and refreshments will provide the perfect winter ambience. Come alone or come with family and friends. There will be plenty of people to join in the fun at this outdoor winter event. Take a tour with a volunteer guide or explore the winter beauty of the Preserve on your own.
